I _____ understand that Psychiatric Specialists of Texas does not routinely prescribe Benzodiazepines. For example, but not limited to: Xanax, Klonopin, Valium, or Ativan.

This office also does not routinely prescribe Adderall.

I also understand that being seen in this practice does not mean I will get any of the above-mentioned medications. It is at the prescriber's sole discretion if they are prescribed.

IF a benzodiazepine medication is prescribed and dosage is not taken as prescribed, there will be no additional prescriptions called in early to the pharmacy.
